DEFINITIONS

Active Share is a measure of the percentage of stock holdings in a managers portfolio that differ from the benchmark index (based on holdings and weight of holdings). Active Share scores range from 0%-100%. A score of 100% means you are completely different from the benchmark. Active Share calculation may consolidate holdings with the same economic exposure. **Alpha** (Jensen's) is a risk-adjusted performance measure that represents the average return on a portfolio or investment above or below that predicted by the capital asset pricing model (CAPM) given the portfolio's or investment's beta and the average market return. Prior to 6/30/2018 Alpha was calculated as the excess return of the fund versus benchmark. **Beta** is a measure of the relative volatility of a fund to the market's upward or downward movements. A beta greater than 1.0 identifies an issue or fund that will move more than the market, while a beta less than 1.0 identifies an issue or fund that will move less than the market. The Beta of the Market is always equal to 1. **Bloomberg** stands for 'Bloomberg Global Identifier (BBGID)'. This is a unique 12 digit alphanumeric code designed to enable the identification of securities, such as the Morgan Stanley Investment Funds sub-funds at share class level, on a Bloomberg Terminal. The Bloomberg Terminal, a system provided by Bloomberg L.P., enables analysts to access and analyse real-time financial market data. Each Bloomberg code starts with the same BBG prefix, followed by nine further characters that we list here in this guide for each share class of each fund. **Cash & Equivalents** are defined as the value of assets that can be converted into

Share Class Z Risk and Reward Profile

The risk and reward category shown is based on historic data.

- Historic figures are only a guide and may not be a reliable indicator of what may happen in the future.
- As such this category may change in the future.
- The higher the category, the greater the potential reward, but also the greater the risk of losing the investment. Category 1 does not indicate a risk free investment.
- The fund is in this category because it invests in company shares and the fund's simulated and/or realised return has experienced high rises and falls historically.
- The fund may be impacted by movements in the exchange rates between the fund's currency and the currencies of the fund's investments.

This rating does not take into account other risk factors which should be considered before investing, these include:

- The fund relies on other parties to fulfill certain services, investments or transactions. If these parties become insolvent, it may expose the fund to financial loss.
- Sustainability factors can pose risks to investments, for example: impact asset values, increased operational costs.
- There may be an insufficient number of buyers or sellers which may affect the fund's ability to buy or sell securities.
- Investment in China A-Shares via Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programs may also entail additional risks, such as risks linked to the ownership of shares.
- Past performance is not a reliable indicator of future results. Returns may increase or decrease as a result of currency fluctuations. The value of investments and the income from them can go down as well as up and investors may lose all or a substantial portion of his or her investment.
- The value of the investments and the income from them will vary and there can be no assurance that the Fund will achieve its investment objectives.
- Investments may be in a variety of currencies and therefore changes in rates of exchange between currencies may cause the value of investments to decrease or increase. Furthermore, the value of investments may be adversely affected by fluctuations in exchange rates between the investor's reference currency and the base currency of the investments.

cash immediately. These include commercial paper, open FX transactions, Treasury bills and other short-term instruments. Such instruments are considered cash equivalents because they are deemed liquid and not subject to significant risk of changes in values. **Dividend yield** is the ratio between how much a company pays out in dividends each year relative to its share price. **Excess Return** or value added (positive or negative) is the portfolio's return relative to the return of the benchmark. **Information ratio** is the portfolio's alpha or excess return per unit of risk, as measured by tracking error, versus the portfolio's benchmark. **ISIN** is the international securities identification number (ISIN), a 12 digit code consisting of numbers and letters that distinctly identifies securities. **NAV** is the Net Asset Value per share of the Fund (NAV), which represents the value of the assets of a fund less its liabilities. **Number of holdings** provided are a typical range, not a maximum number. The portfolio may exceed this from time to time due to market conditions and outstanding trades. **Price/earnings (NTM)** This forward P/E ratio estimates a company's likely earnings per share for the next 12 months. **Price/free cash flow (NTM)** is a ratio used to compare a company's market value to its free cash flow. It is calculated by dividing the company's per-share stock price by its per-share free cash flow. Free Cash flow is calculated by subtracting a company's Capital Expenditures from its Operating Cash flow. **R squared** measures how well an investment's returns correlate to an index. An R squared of 1.00 means the portfolio performance is 100% correlated to the index's, whereas a low r-squared means that the portfolio performance is less correlated to the index's. **Tracking error** is the standard deviation of the difference between the returns of an investment and its benchmark. **Upside/downside market capture** measures annualized performance in up/down markets relative to the market benchmark. **Volatility (Standard deviation)** measures how widely individual performance returns, within a performance series, are dispersed from the average or mean value.

INDEX INFORMATION

The **MSCI World Net Index** is a free float adjusted market capitalization weighted index that is designed to measure the global equity market performance of developed markets. The term "free float" represents the portion of shares outstanding that are deemed to be available for purchase in the public equity markets by investors. The performance of the Index is listed in U.S. dollars and assumes reinvestment of net dividends. The index is

unmanaged and does not include any expenses, fees or sales charges. It is not possible to invest directly in an index.

***MORNINGSTAR**

Ratings as of 31.12.2023. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts,

exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Ratings do not take into account sales loads.

The **Europe/Asia and South Africa category (EAA)** includes funds domiciled in European markets, major cross-border Asian markets where material numbers of European UCITS funds are available (principally Hong Kong, Singapore and Taiwan), South Africa, and selected other Asian and African markets where Morningstar believes it is of benefit to investors for the funds to be included in the EAA classification system.

INFORMATION MEMORANDUM

Morgan Stanley Investment Funds (the "Company")

Société d'investissement à Capital Variable Luxembourg

IMPORTANT

This Singapore information memorandum is authorised for distribution only when accompanied by the Luxembourg prospectus for the Company, as amended or modified from time to time (the "**Prospectus**"). Please read this document and the Prospectus for full information on the Funds (as defined below). Capitalised terms used herein which are not defined shall have the meanings attributed to them in the Prospectus.

The Funds are not authorised or recognised by the Monetary Authority of Singapore ("**MAS**") and shares in the Funds ("**Shares**") are not allowed to be offered to the retail public. Moreover, this Information Memorandum which relates to the offer of Shares in the Funds is not a prospectus as defined in the Securities and Futures Act, 2001 of Singapore, as amended or modified from time to time (the "**SFA**"), and accordingly, statutory liability under the SFA in relation to the content of prospectuses would not apply. You should consider carefully whether the investment is suitable for you.

The Shares are classified as capital markets products other than prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

This Information Memorandum has not been registered as a prospectus by the MAS, and the offer of the Shares is made pursuant to the exemptions under Sections 304 and 305 of the SFA. Accordingly, the Shares may not be offered or sold, nor may the Shares be the subject of an invitation for subscription or purchase, nor may this Information Memorandum or any other document or material in connection with the offer or sale, or invitation for subscription or purchase of the Shares be circulated or distributed, whether directly or indirectly, to any person in Singapore other than under exemptions provided in the SFA for offers made (a) to an institutional investor (as defined in Section 4A of the SFA) pursuant to Section 304 of the SFA, (b) to a relevant person (as defined in Section 305(5) of the SFA), or any person pursuant to an offer referred to in Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA, or (c) otherwise pursuant to, and in accordance with, the conditions of any other applicable provision of the SFA. First sales of the Shares acquired pursuant to Sections 304 and 305 of the SFA are subject to the requirements under Sections 304A and 305A of the SFA respectively.

Where the Shares are acquired by persons who are relevant persons specified in Section 305A of the SFA, namely:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold

investments and each beneficiary of the trust is an individual who is an accredited investor,

the securities of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Shares pursuant to an offer made under Section 305 of the SFA except:

- (1) to an institutional investor or to a relevant person as defined in Section 305(5) of the SFA, or which arises from an offer referred to in Section 275(1A) of the SFA (in the case of that corporation) or Section 305A(3)(c)(ii) of the SFA (in the case of that trust);
- (2) where no consideration is or will be given for the transfer;
- (3) where the transfer is by operation of law;
- (4) as specified in Section 305A(5) of the SFA; or
- (5) as specified in Regulation 36A of the Securities and Futures (Offers of Investments) (Collective Investment Schemes) Regulations 2005 of Singapore.

Offer of Funds in Singapore

For the purposes of the offer in Singapore to (i) to an institutional investor (as defined in Section 4A of the SFA) pursuant to Section 304 of the SFA, (ii) to a relevant person (as defined in Section 305(5) of the SFA), or any person pursuant to an offer referred to in Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA, only the following Funds shall be available:

Side Letters

The Company does not enter directly into side letters with investors.

Liquidity Risk

The Company and the Management Company have established a liquidity risk process to assess and monitor the liquidity risk profile of the relevant Fund on an on-going basis. A summary of the liquidity management tools that may be implemented by the Management Company and/or the Company is set out below. Such liquidity management tools may be implemented in exceptional circumstances and in the best interest of the relevant Fund and its Shareholders and will have the corresponding effect on investors described below. Please refer to Sections 2.3 and 2.4 of the Prospectus for further information on these liquidity management tools.

Redemption fee and conversion fee

A redemption fee or conversion fee of up to 2% of an individual redemption or conversion (as the case may be) may be applied where the Management Company, in its discretion, determines that the shareholder has engaged in trading practices which adversely affect the interests of the Company's shareholders or where it is otherwise appropriate to protect the interest of the Company. Such redemption fee and conversion fee will be retained for the benefit of continuing Shareholders of the relevant Fund.

Suspension of redemption

The Company shall suspend the redemption of Shares of the Company during any period when the calculation of the Net Asset Value per share of the relevant Class is suspended under circumstances set out in section 2.7 of the Prospectus headed "Net Asset Value Determination". Shareholders will not be able to redeem Shares in the affected Fund(s) during the period when the calculation of the Net Asset Value is suspended.

Gating

Shareholders may not be able to redeem or convert their Shares in a Fund where application(s) for redemption or conversion in respect of that Fund on any one Dealing Day is more than 10% of the Net Asset Value of that Fund. In the event that such 10% threshold in respect of a Dealing Day is exceeded, the Company may scale down each application with respect to such Dealing Day pro rata so that not more than 10% of the Net Asset Value of the relevant Fund be redeemed or converted on such Dealing Day.

Alternatively, the Management Company, in its sole and absolute discretion, may ask such Shareholder(s) affected by the abovementioned gating procedure to accept payment in whole or in part by an in-kind distribution of securities in lieu of cash. No Shareholder can be required to accept an in-kind distribution against their will, and where a Shareholder refuses such in-kind payment, the redemption proceeds will be paid in the Reference Currency of the Fund or, if applicable, in the currency which the Currency Hedged Share Class is denominated from which the Shareholder is redeeming.

Anti-Dilution Measures

In order to protect remaining shareholders in a Fund from dilution that is caused when investors enter or exit the Fund, thereby incurring trading costs, the Management Company may adjust the NAV of a Fund to reflect these estimated trading costs, a mechanism known as swing pricing.

When net investor activity in a Fund exceeds a certain threshold (“Swing Threshold”) on a given Dealing Day, the NAV is adjusted by a factor (“Swing Factor”), upwards in case of net subscriptions and downwards in case of net redemptions. In either case, the swung NAV applies to all transactions, regardless of direction, not the specific circumstances of each individual investor transaction.

For each Fund, the Swing Factor shall not exceed 2% of the NAV in normal market conditions, however, the Management Company may decide to temporarily increase this limit in exceptional circumstances (e.g. stressed or dislocated markets resulting in increased trading costs beyond the 2% cap) to protect Shareholders’ interests.

Restrictions on conversion

The Management Company may refuse to accept a conversion application if it is detrimental to the interests of the Company or the Shareholders, taking into account the monetary amount or number of Shares to be converted, market conditions or any other circumstances (e.g., short-term trading).
